

**WE'LL APOLOGISE  
FOR THE SMOKE NOW  
SO WE'RE NOT ALL  
SORRY LATER.**

Smoke generated during Fuel Reduction Season is an unavoidable part of a much bigger picture. By reducing the amount of fuel now, we're helping protect lives and properties during summer. We ensure the conditions are just right and that the fuel is as dry as possible to minimise the amount of smoke. And we try to provide as much warning as we can to people in the area.
